

TENGO LOMIDZE

Programmer Front-end/Scripter/Gamedev

I'm a programmer and university student who just likes building cool stuff. I work on a bit of everything - from front-end web development to scripting games in Roblox and Unity. I've won coding competitions, worked as a hired scripter, and I'm also into cyber security.

2014-2022		Private High School "Davitiani"
2022-2025		Vladimir Komarov Tbilisi Physics-Mathematics Public School No. 199
2025-NOW		Free University of Tbilisi

PROJECTS/WORK

-  **ROBLOX SCRIPTING**
Wrote game exploits and internal tooling for popular minigame "Booga Booga", reverse-engineering game mechanics and writing high-performance scripts that were successfully monetized and deployed to active users.
 <https://www.youtube.com/@crig2>
-  **MINECRAFT 2D**
Built a 2D Minecraft clone using Unity for the 2022 Unilab final project and won 1st place in the competition.
